Bungay Primary School

Introduction

The development and expansion of the use of ICT, and particularly of the internet, has transformed learning in schools in recent years. Children and young people will need to develop high level ICT skills, not only to maximise their potential use as a learning tool, but also to prepare themselves as lifelong learners and for future employment. There is a large body of evidence that recognises the benefits that ICT can bring to teaching and learning. Schools have made a significant investment both financially and physically to ensure these technologies are available to all learners. The benefits are perceived to "outweigh the risks." However, schools must, through their eSafety/Online Safety policy, ensure that they meet their statutory obligations to ensure that children and young people are safe and are protected from potential harm, both within and outside school. The policy will also form part of the school's protection from legal challenge relating to the use of ICT.

Background / Rationale

New technologies have become integral to the lives of children and young people in today's society, both within schools and in their lives outside school.

The internet and other digital and information technologies are powerful tools, which open up new opportunities for everyone. Electronic communication helps teachers and students learn from each other. These technologies can stimulate discussion, promote creativity and increase awareness of context to promote effective learning. Children and young people should have an entitlement to safe internet access at all times.

The requirement to ensure that children and young people are able to use the internet and related communications technologies appropriately and safely is addressed as part of the wider duty of care to which all who work in schools are bound. A school eSafety/Online safety policy should help to ensure safe and appropriate use. The development and implementation of such a strategy should involve all the stakeholders in a child's education from the Headteacher and governors to the senior leaders and classroom teachers, support staff, parents, members of the community and the students themselves.

The use of these exciting and innovative tools in school and at home has been shown to raise educational standards and promote student achievement. However, the use of these new technologies can put young people at risk within and outside the school. Some of the dangers they may face include:

- **Access to illegal, harmful or inappropriate images or other content**
- **Unauthorised access to / loss of / sharing of personal information**
- **The risk of being subject to grooming by those with whom they make contact on the internet.**
- **The sharing / distribution of personal images without an individual's consent or knowledge**
- **Inappropriate communication / contact with others, including strangers**
- **Cyber-bullying**
- **Access to unsuitable video / internet games**
- **An inability to evaluate the quality, accuracy and relevance of information on the internet**
- **Plagiarism and copyright infringement**
- **Illegal downloading of music or video files**
- **The potential for excessive use which may impact on the social and emotional development and learning of the young person.**

Many of these risks reflect situations in the off-line world and it is essential that this eSafety/Online policy is used in conjunction with other school policies (e.g. Learning Expectations, Anti-bullying and Safeguarding policies). As with all other risks, it is impossible to eliminate those risks completely. It is therefore essential, through good educational provision, to build students' resilience to the risks to which they may be exposed, so that they have the confidence and skills to face and deal with these risks.

Bungay Primary School

Development / Monitoring / Review of this Policy

eSafety/Online policy has been developed by a working group made up of:

- WABSP eSafety Coordinator (Rick Hekkenberg)
- Headteacher / BPS E-Safety/Online Safety (Iain Owens)
- ITC Leader (Paula El-Shanar)
- Website technician/HLTA (Daniel Cable)
- eSafety/Online safety/Safeguarding Governor (Hannah Booty)

Schedule for Development / Monitoring / Review

- The implementation of this eSafety policy will be monitored by the SLT & Governors.
- Monitoring will take place at regular intervals e.g. at least annually or as appropriate.
- The Governing Body and/or Governors Sub Committee will receive a report on the implementation of the eSafety policy generated by the monitoring group (which will include anonymous details of eSafety incidents) at regular intervals e.g. annually.

The eSafety Policy will be reviewed annually, or more regularly in the light of any significant new developments in the use of the technologies, new threats to eSafety or incidents that have taken place.

Should serious eSafety incidents take place, the Safeguarding Officer (Deputy Head) should be informed.

The school will monitor the impact of the policy using:

- Logs of reported incidents
- Internal monitoring data for network activity
- Surveys / questionnaires of students (e.g. Ofsted "Tell-us" survey / CEOP ThinkUknow survey)
- Parents / carers
- Staff

Scope of the Policy

- This policy applies to all members of the school community (including staff, students, volunteers, parents / carers, visitors, community users) who have access to and are users of school ICT systems, both in and out of school.
- The Education and Inspections Act 2006 empowers Headteachers, to such extent as is reasonable, to regulate the behaviour of students when they are off the school site and empowers members of staff to impose disciplinary penalties for inappropriate behaviour. This is pertinent to incidents of cyber-bullying or other eSafety incidents covered by this policy, which may take place out of school, but is linked to membership of the school.
- The school will deal with such incidents within this policy and associated Learning Expectations and Anti-bullying policies and will, where known, inform parents / carers of incidents of inappropriate eSafety behaviour that takes place out of school.

Bungay Primary School

Roles and Responsibilities

The following section outlines the roles and responsibilities for eSafety of individuals and groups within the school.

Governors:

Governors are responsible for the approval of the eSafety Policy and for reviewing the effectiveness of the policy. This will be carried out by the Governors receiving regular information about eSafety incidents and monitoring reports. A member of the Governing Body has taken on the role of eSafety Governor. The role of the eSafety Governor will include:

- regular meetings with the eSafety Co-ordinator
- regular monitoring of eSafety incident logs
- reporting to relevant Governors meetings

Headteacher and Senior Leaders:

- The Headteacher is responsible for ensuring the safety (including eSafety) of members of the school community, though the day to day responsibility for eSafety will be delegated to the eSafety Co-ordinator.
- The Headteacher / Senior Leaders are responsible for ensuring that the eSafety Coordinator and other relevant staff receive suitable training to enable them to carry out their eSafety roles and to train other colleagues, as relevant.
- The Headteacher / Senior Leaders will ensure that there is a system in place to allow for monitoring and support of those in school who carry out the internal eSafety monitoring role. This is to provide a safety net and also support to those colleagues who take on important monitoring roles.
- The Senior Leadership Team will receive regular monitoring reports from the eSafety Co-ordinator.
- The Headteacher and another member of the Senior Leadership Team should be aware of the procedures to be followed in the event of a serious eSafety allegation being made against a member of staff. (See flow chart on dealing with eSafety incidents).

eSafety Coordinator:

- leads the eSafety across the school.
- takes day to day responsibility for eSafety issues and has a leading role in establishing and reviewing the school eSafety policies / documents
- ensures that all staff are aware of the procedures that need to be followed in the event of an eSafety incident taking place
- provides training and advice for staff
- liaises with the Local Authority
- liaises with school ICT technical staff
- receives reports of eSafety incidents and creates a log of incidents to inform future eSafety developments
- meets regularly with eSafety Governor to discuss current issues, review incident logs
- attends relevant meeting / committee of Governors
- reports regularly to Senior Leadership Team

ICT Technical staff: (via BHS)

The ICT technical staff are responsible for ensuring:

- that the school's ICT infrastructure is secure and is not open to misuse or malicious attack
- that the school meets the eSafety technical requirements outlined in the Security Policy and Acceptable Usage Policy and any relevant Local Authority eSafety guidance
- that users may only access the school's networks through a properly enforced password protection policy, in which passwords are regularly changed
- Senior Leaders are informed of issues relating to the filtering applied by IT Services
- the school's filtering policy is applied and updated on a regular basis and that its implementation

Bungay Primary School

- is not the sole responsibility of any single person
- that he / she keeps up to date with eSafety technical information in order to effectively carry out
- their eSafety role and to inform and update others as relevant
- that the use of the network / Virtual Learning Environment (VLE) / remote access / email is regularly monitored in order that any misuse / attempted misuse can be reported to the eSafety Co-ordinator for investigation / action / sanction
- that monitoring software / systems are implemented and updated

Teaching and Support Staff:

The teaching and support staff are responsible for ensuring that:

- they have an up to date awareness of eSafety matters and of the current school eSafety policy and practices
- they have read, understood and signed the school Staff Acceptable Use Policy / Agreement (AUP)
- they report any suspected misuse or problem to the eSafety Co-ordinator for investigation / action / sanction
- digital communications with students (email / Virtual Learning Environment (VLE) / voice) should be on a professional level and only carried out using official school systems
- eSafety issues are embedded in all aspects of the curriculum and other school activities
- students understand and follow the school eSafety and Acceptable Use Policy
- students have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- they monitor ICT activity in lessons, extra-curricular and extended school activities, making regular checks during lesson time of student use
- they are aware of eSafety issues related to the use of mobile phones, cameras and hand held devices and that they monitor their use and implement current school policies with regard to these devices
- in lessons where internet use is pre-planned students should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches

Designated Person for Safeguarding:

The Senior Designated Officer for Safeguarding is trained in eSafety issues and is aware of the potential for serious safeguarding issues which may arise from:

- sharing of personal data
- access to illegal / inappropriate materials
- inappropriate on-line contact with adults / strangers
- potential or actual incidents of grooming
- cyber-bullying

eSafety Committee:

Members of the eSafety committee (or other relevant group) will assist the eSafety Coordinator (or other relevant person, as above) with:

- the production / review / monitoring of the school eSafety policy / documents.
- the production / review / monitoring of the school filtering policy

eSafety committee members are:

- Headteacher
- eSafety Coordinator
- Teachers
- eSafety Governor
- Parents and Carers

Bungay Primary School

Students:

- are responsible for using the school ICT systems in accordance with the Student Acceptable Use Policy, which they will be expected to sign before being given access to school systems
- have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- need to understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- will be expected to know and understand school policies on the use of mobile phones, digital cameras and hand held devices. They should also know and understand school policies on the taking / use of images and on cyber-bullying
- should understand the importance of adopting good eSafety practice when using digital technologies out of school and realise that the school's eSafety Policy covers their actions out of school, if related to their membership of the school

Parents / Carers:

Parents / Carers play a crucial role in ensuring that their children understand the need to use the internet / mobile devices in an appropriate way. Research shows that many parents and carers do not fully understand the issues and are less experienced in the use of ICT than their children. The school will therefore take every opportunity to help parents understand these issues through parents' evenings, newsletters, letters, website / VLE and school blog. Parents and carers will be responsible for:

- endorsing (by signature) the Student Acceptable Use Policy
- accessing the school website / VLE / on-line student records in accordance with the relevant School Acceptable Use Policy.

Policy Statements

Education – Students

Whilst regulation and technical solutions are very important, their use must be balanced by educating students to take a responsible approach. The education of students in eSafety is therefore an essential part of the school's eSafety provision. Children and young people need the help and support of the school to recognise and avoid eSafety risks and build their resilience.

eSafety education will be provided in the following ways:

- A planned eSafety programme should be provided as part of ICT, PHSEE and other lessons and should be regularly revisited – this will cover both the use of ICT and new technologies in school and outside school
- Key eSafety messages should be reinforced as part of a planned programme of assemblies, tutorial and pastoral activities
- Students should be taught in all lessons to be critically aware of the materials and content they access on-line and be guided to validate the accuracy of information
- Students should be helped to understand the need for the student AUP and encouraged to adopt safe and responsible use of ICT, the internet and mobile devices both within and outside school
- Students should be taught to acknowledge the source of information used and to respect copyright when using material accessed on the internet
- Rules for use of ICT systems / internet will be posted in all rooms and displayed on log-on screens
- Staff should act as good role models in their use of ICT, the internet and mobile devices

Education – parents / carers

The school seek to provide information and awareness to parents and carers through:

- Letters, newsletters, web site, VLE
- Parents evenings

Bungay Primary School

Education - Extended Schools

The school will offer family learning courses in ICT, media literacy and eSafety so that parents and children can together gain a better understanding of these issues. Messages to the public around e safety should also be targeted towards grandparents and other relatives as well as parents. Everyone has a role to play in empowering children to stay safe while they enjoy these new technologies, just as it is everyone's responsibility to keep children safe in the non-digital world.

Education & Training – Staff

It is essential that all staff receive eSafety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- A planned programme of formal eSafety training will be made available to staff. An audit of the eSafety training needs of all staff will be carried out regularly. It is expected that some staff will identify eSafety as a training need within the performance management process
- All new staff should receive eSafety training as part of their induction programme, ensuring that they fully understand the school eSafety policy and Acceptable Use Policies
- The eSafety Coordinator (or other nominated person) will receive regular updates through attendance at LA / other information / training sessions and by reviewing guidance documents released by LA and others
- This eSafety policy and its updates will be presented to and discussed by staff in staff / team meetings / INSET days
- The eSafety Coordinator (or other nominated person) will provide advice / guidance / training as required to individuals as required

Training – Governors

Governors should take part in eSafety training / awareness sessions, with particular importance for those who are eSafety / Health and Safety / Safeguarding links. This may be offered in a number of ways:

- Attendance at training provided by the Local Authority
- Participation in school training / information sessions for staff or parents

Technical – infrastructure / equipment, filtering and monitoring

The school will be responsible for ensuring that the school infrastructure / network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. It will also need to ensure that the relevant people named in the above sections will be effective in carrying out their eSafety responsibilities:

- School ICT systems will be managed in ways that ensure that the school meets the eSafety technical requirements outlined in the Security Policy and Acceptable Usage Policy and any relevant Local Authority eSafety Policy and guidance
- There will be regular reviews and audits of the safety and security of school ICT systems
- Servers, wireless systems and cabling must be securely located and physical access restricted
- All users will have clearly defined access rights to school ICT systems. Details of the access rights available to groups of users will be recorded by the Network Manager and will be reviewed, at least annually, by the eSafety Committee
- All users will be provided with a username and password by IT Services who will keep an up to date record of users and their usernames. Users will be required to change their password every 30 days. **Passwords must contain a combination of uppercase and lowercase letters and either number(s) or special character(s) (i.e. Norwich1 or Norwich@). First or last names cannot be used. The last five passwords are remembered.**
- The "administrator" passwords for the school ICT system used by IT Services must also be available to the Headteacher or other nominated senior leader and kept in a secure place (e.g. school safe)

Bungay Primary School

- Users will be made responsible for the security of their username and password, must not allow other users to access the systems using their log on details and must immediately report any suspicion or evidence that there has been a breach of security
- The school maintains and supports the filtering solution provided by Censornet
- In the event of the Network Manager (or other person) needing to switch off the filtering for any reason, or for any user, this must be logged and carried out by a process that is agreed by the Headteacher (or other nominated senior leader)
- Any filtering issues should be reported immediately to IT Services
- Requests from staff for sites to be removed from the filtered list will be considered by IT Services. If the request is agreed, this action will be recorded and logs of such actions shall be reviewed regularly by the eSafety Committee
- School ICT technical staff regularly monitor and record the activity of users on the school ICT systems and users are made aware of this in the Acceptable Use Policy
- Remote management tools are used by staff to control workstations and view users' activity
- An appropriate system is in place for users to report any actual / potential eSafety incident to IT Services
- Appropriate security measures are in place to protect the servers, firewalls, routers, wireless systems, work stations, hand held devices etc. from accidental or malicious attempts which might threaten the security of the school systems and data
- An agreed policy is in place for the provision of temporary access of "guests" (e.g. trainee teachers, visitors) onto the school system.
- An agreed policy is in place regarding the downloading of executable files by users
- An agreed policy is in place regarding the extent of personal use that users (staff, students and community users) and their family members are allowed on laptops and other portable devices that may be used out of school
- An agreed policy is in place that forbids staff from installing programmes on school workstations / portable devices
- An agreed policy is in place regarding the use of removable media (e.g. memory sticks / CDs / DVDs) by users on school workstations / portable devices
- The school infrastructure and individual workstations are protected by up to date virus software.
- Personal data cannot be sent over the internet or taken off the school site unless safely encrypted or otherwise secured
-

Curriculum

eSafety should be a focus in all areas of the curriculum and staff should reinforce eSafety messages in the use of ICT across the curriculum:

- In lessons where internet use is pre-planned, it is best practice that students should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches
- Where students are allowed to freely search the internet, e.g. using search engines, staff should be vigilant in monitoring the content of the websites the young people visit
- It is accepted that from time to time, for good educational reasons, students may need to research topics (e.g. racism, drugs, and discrimination) that would normally result in internet searches being blocked. In such a situation, staff can request that the Network Manager (and other relevant person) can temporarily remove those sites from the filtered list for the period of study. Any request to do so, should be auditable, with clear reasons for the need
- Students should be taught in all lessons to be critically aware of the materials / content they access on-line and be guided to validate the accuracy of information
- Students should be taught to acknowledge the source of information used and to respect copyright when using material accessed on the internet by referencing their sources in an acceptable format

Bungay Primary School

Use of digital and video images - Photographic, Video

The development of digital imaging technologies has created significant benefits to learning, allowing staff and students instant use of images that they have recorded themselves or downloaded from the internet. However, staff and students need to be aware of the risks associated with sharing images and with posting digital images on the internet. Those images may remain available on the internet forever and may cause harm or embarrassment to individuals in the short or longer term. There are many reported incidents of employers carrying out internet searches for information about potential and existing employees. The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm.

- When using digital images, staff should inform and educate students about the risks associated with the taking, use, sharing, publication and distribution of images. In particular they should recognise the risks attached to publishing their own images on the internet e.g. on social networking sites
- Staff are allowed to take digital / video images to support educational aims, but must follow school policies concerning the sharing, distribution and publication of those images. Those images should only be taken on school equipment, the personal equipment of staff should not be used for such purposes
- Care should be taken when taking digital / video images that students are appropriately dressed and are not participating in activities that might bring the individuals or the school into disrepute
- Students must not take, use, share, publish or distribute images of others without their permission
- Photographs published on the website, or elsewhere that include students will be selected carefully and will comply with good practice guidance on the use of such images
- Students' full names will not be used anywhere on a website or blog, particularly in association with photographs
- Written permission from parents /carers will be obtained before photographs of students are published on the school website (may be covered as part of the AUP signed by parents or carers at the start of the year)
- Student's work can only be published with the permission of the student and parents / carers

Data Protection

Personal data will be recorded, processed, transferred and made available according to the Data Protection Act 1998 which states that personal data must be:

- Fairly and lawfully processed
- Processed for limited purposes
- Adequate, relevant and not excessive
- Accurate
- Kept no longer than is necessary
- Processed in accordance with the data subject's rights
- Secure
- Only transferred to others with adequate protection

Staff must ensure that they:

- At all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse.
- Use personal data only on secure password protected computers and other devices, ensuring that they are properly "logged-off" at the end of any session in which they are using personal data.
- Transfer data using encryption and secure password protected devices

Bungay Primary School

When personal data is stored on any portable computer system, USB stick or any other removable media:

- the data must be encrypted and password protected
- the device must be password protected (many memory sticks / cards and other mobile devices cannot be password protected)
- the device must offer approved virus and malware checking software
- the data must be securely deleted from the device, in line with school policy (below) once it has been transferred or its use is complete

Communications

A wide range of rapidly developing communications technologies has the potential to enhance learning. The following table shows how the school currently considers the benefit of using these technologies for education outweighs their risks / disadvantages:

Communication Technologies	Staff & other adults				Students			
	Allowed	Allowed at certain times	Allowed for selected staff	Not allowed	Allowed	Allowed at certain times	Allowed with staff permission	Not allowed
Mobile phones may be brought to school	√						√	
Use of mobile phones in lessons				√				√
Use of mobile phones in social time	√							√
Taking photos on mobile phones or other camera devices				√				√
Use of hand held devices eg PDAs, PSPs	√							√
Use of personal email addresses in school, or on school network	√							√
Use of school email for personal emails		√						√
Use of chat rooms / facilities				√				√
Use of instant messaging	√							√
Use of social networking sites				√				√
Use of blogs	√					√		

Bungay Primary School

When using communication technologies the school considers the following as good practice:

- The official school email service may be regarded as safe and secure and is monitored. Staff and students should therefore use only the school email service to communicate with others when in school, or on school systems (eg by remote access).
- Users need to be aware that email communications may be monitored
- Users must immediately report, to the nominated person – in accordance with the school policy, the receipt of any email that makes them feel uncomfortable, is offensive, threatening or bullying in nature and must not respond to any such email.
- Any digital communication between staff and students or parents / carers (email, chat, VLE etc) must be professional in tone and content. These communications may only take place on official (monitored) school systems. Personal email addresses, text messaging or public chat / social networking programmes must not be used for these communications.
- Students should be taught about email safety issues, such as the risks attached to the use of personal details. They should also be taught strategies to deal with inappropriate emails and be reminded of the need to write emails clearly and correctly and not include any unsuitable or abusive material.
- Personal information should not be posted on the school website and only official email addresses should be used to identify members of staff.

Unsuitable / Inappropriate Activities

The school believes that the activities referred to in the following section would be inappropriate in a school context and that users, as defined below, should not engage in these activities in school or outside school when using school equipment or systems. The school policy restricts certain internet usage as follows:

User Actions		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
Users shall not visit Internet sites, make, post, download, upload, data transfer, communicate or pass on, material, remarks, proposals or comments that contain or relate to:	child sexual abuse images					√
	promotion or conduct of illegal acts, e.g. under the child protection, obscenity, computer misuse and fraud legislation					√
	adult material that potentially breaches the Obscene Publications Act in the UK					√
	criminally racist material in UK					√
	pornography				√	
	promotion of any kind of discrimination				√	
	promotion of racial or religious hatred				√	

Bungay Primary School

	threatening behaviour, including promotion of physical violence or mental harm				√	
	any other information which may be offensive to colleagues or breaches the integrity of the ethos of the school or brings the school into disrepute				√	
	Using school systems to run a private business				√	
	Use systems, applications, websites or other mechanisms that bypass the filtering or other safeguards employed by the school				√	
	Uploading, downloading or transmitting commercial software or any copyrighted materials belonging to third parties, without the necessary licensing permissions				√	
	Revealing or publicising confidential or proprietary information (eg financial / personal information, databases, computer / network access codes and passwords)				√	
	Creating or propagating computer viruses or other harmful files				√	
	Carrying out sustained or instantaneous high volume network traffic (downloading / uploading files) that causes network congestion and hinders others in their use of the internet				√	
	On-line gaming (educational)	√				
	On-line gaming (non-educational)				√	
	On-line gambling				√	
	On-line shopping / commerce				√	
	File sharing				√	
	Use of social networking sites				√	
	Use of video broadcasting e.g. Youtube			√		

Bungay Primary School

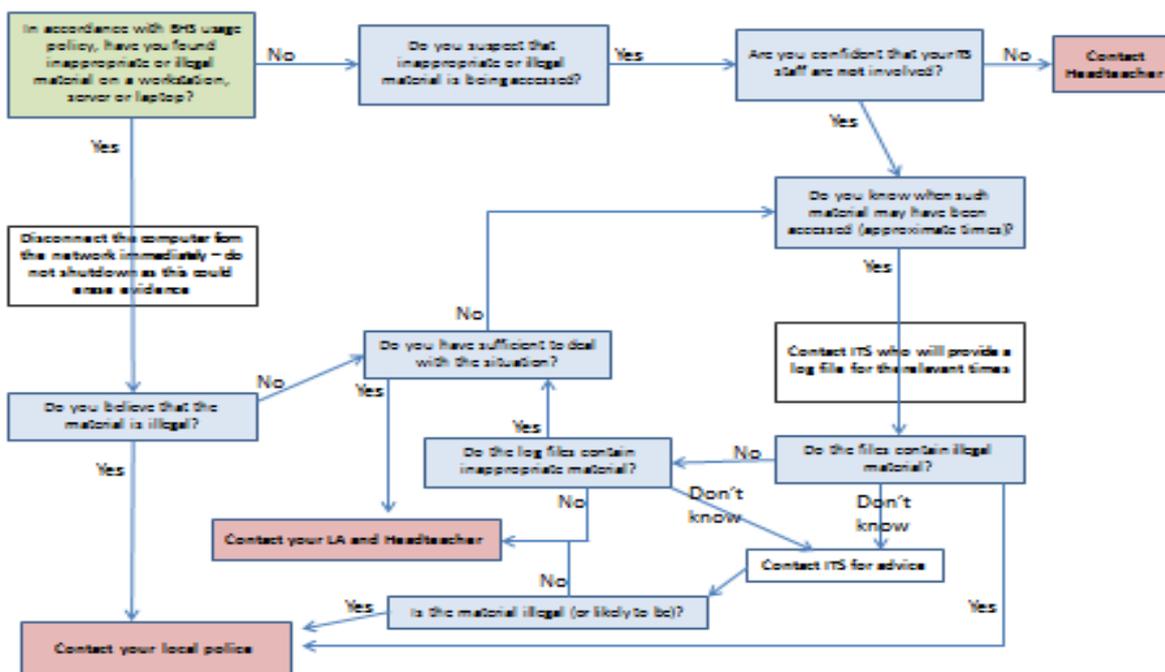

Responding to incidents of misuse:

It is hoped that all members of the school community will be responsible users of ICT, who understand and follow this policy. However, there may be times when infringements of the policy could take place, through careless or irresponsible or, very rarely, through deliberate misuse. Listed below are the responses that will be made to any apparent or actual incidents of misuse:

If any apparent or actual misuse appears to involve illegal activity i.e.:

- child sexual abuse images
- adult material which potentially breaches the Obscene Publications Act
- criminally racist material
- other criminal conduct, activity or materials

The flow chart, below, should be consulted and actions followed in line with the flow chart, in particular the sections on reporting the incident to the police and the preservation of evidence.

If members of staff suspect that misuse might have taken place, but that the misuse is not illegal (as above) it is essential that correct procedures are used to investigate, preserve evidence and protect those carrying out the investigation.

It is more likely that the school will need to deal with incidents that involve inappropriate rather than illegal misuse. It is important that any incidents are dealt with as soon as possible in a proportionate manner, and that members of the school community are aware that incidents have been dealt with. It is intended that incidents of misuse will be dealt with through normal behaviour / disciplinary procedures as follows:

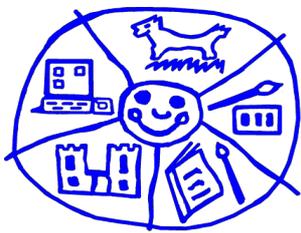

Bungay Primary School

Students

Actions / Sanctions

Incidents:	Refer to class teacher	Refer to pastoral Care Manager/E Safety Leaders	Refer to Headteacher	Refer to Police	Refer to technical support staff for action re filtering	Inform parents / carers	Removal of network / internet access rights	Warning	Further sanction eg detention / exclusion
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on unsuitable / inappropriate activities).	✓	✓	✓	✓	✓	✓	✓	✓	✓
Unauthorised use of non-educational sites during lessons	✓	✓			✓				
Unauthorised use of mobile phone / digital camera / other handheld device	✓	✓							
Unauthorised use of social networking / instant messaging / personal email	✓	✓							
Unauthorised downloading or uploading of files	✓	✓							
Allowing others to access school network by sharing username and passwords	✓	✓							
Attempting to access or accessing the school network, using another student's account	✓	✓			✓	✓	✓	✓	✓
Attempting to access or accessing the school network, using the account of a member of staff	✓	✓			✓	✓	✓	✓	✓
Corrupting or destroying the data of other users	✓	✓			✓	✓	✓	✓	✓
Sending an email, text or instant message that is regarded as offensive, harassment or of a bullying nature	✓	✓			✓	✓	✓	✓	✓

Bungay Primary School

Continued infringements of the above, following previous warnings or sanctions	✓	✓	✓		✓	✓	✓	✓	✓
Actions which could bring the school into disrepute or breach the integrity of the ethos of the school	✓	✓	✓		✓	✓	✓	✓	✓
Using proxy sites or other means to subvert the school's filtering system	✓	✓	✓		✓	✓	✓	✓	✓
Accidentally accessing offensive or pornographic material and failing to report the incident	✓	✓	✓		✓	✓	✓	✓	✓
Deliberately accessing or trying to access offensive or pornographic material	✓	✓	✓		✓	✓	✓	✓	✓
Receipt or transmission of material that infringes the copyright of another person or infringes the Data Protection Act	✓	✓	✓		✓	✓	✓	✓	✓

Staff

Actions / Sanctions

Incidents:	Refer to line manager	Refer to Headteacher	Refer to Local Authority / HR	Refer to Police	Refer to Technical Support Staff for action re filtering	Warning	Suspension	Disciplinary action
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on unsuitable / inappropriate activities).		✓	✓	✓				
Excessive or inappropriate personal use of the internet / social networking sites / instant messaging / personal email	✓	✓			✓			
Unauthorised downloading or uploading of files	✓	✓			✓			

Bungay Primary School

Allowing others to access school network by sharing username and passwords or attempting to access or accessing the school network, using another person's account	✓	✓			✓			
Careless use of personal data e.g. holding or transferring data in an insecure manner	✓	✓			✓	✓		
Deliberate actions to breach data protection or network security rules	✓	✓	✓		✓	✓		✓
Corrupting or destroying the data of other users or causing deliberate damage to hardware or software	✓	✓	✓		✓	✓		✓
Sending an email, text or instant message that is regarded as offensive, harassment or of a bullying nature	✓	✓	✓		✓	✓		✓
Using personal email / social networking / instant messaging / text messaging to carrying out digital communications with students / pupils	✓	✓	✓		✓	✓		✓
Actions which could compromise the staff member's professional standing	✓	✓			✓			
Actions which could bring the school into disrepute or breach the integrity of the ethos of the school	✓	✓	✓			✓		✓
Using proxy sites or other means to subvert the school's filtering system	✓	✓	✓		✓	✓		✓
Accidentally accessing offensive or pornographic material and failing to report the incident	✓	✓			✓	✓		
Deliberately accessing or trying to access offensive or pornographic material	✓	✓	✓		✓	✓	✓	✓
Breaching copyright or licensing regulations	✓	✓				✓		✓
